
HOUSTON HOME BUYER GUIDE

Fulshear: before you buy

Compare Fulshear homes, larger lots, and new construction. Review district boundaries, FM 1093 routes, and the full property-tax bill.

Compare the properties

Compare larger lots, newer construction, and community amenities. Check current school assignments directly with the district for any address.

Single-family on larger lots. Some custom-build inventory. Limited resale in newer communities.

A few communities to compare

Cross Creek Ranch, Fulbrook on Fulshear Creek, Tamarron. Compare the current homes and documents for each address; community names alone do not establish costs, school assignments, or what can be built.

Try the route you will use

Routes to compare include FM 1093 and the Westpark Tollway. Test the drive from the specific home to your regular destination, including its entrance or parking garage, at the hours you expect to travel. Traffic and roadwork can change the result.

Bring these local questions

1. What are the build-out timelines for community amenities?
2. Which school district serves this address, and which campuses are assigned for the enrollment year?
3. How do new-construction comps affect resale value mid-term?
4. Which taxing districts apply, and what would the full tax bill be?
5. What's the HOA structure and reserve health?

BEFORE YOU MAKE AN OFFER

Check the exact address

Costs and comparable sales

Review recent sales, the proposed loan terms, current taxes, insurance quotes, HOA dues, and any MUD or other district charges. Keep repairs and cash reserves in the budget.

School assignments

If relevant to your search, confirm the district and assigned campuses directly with the district for the exact address. Use txschools.gov for district and campus information. Ask about boundary changes and enrollment; contact private schools separately.

Flood history and condition

Check current FEMA and local flood maps, available disclosures and claim history, and property-specific insurance quotes. A mapped zone does not rule out flooding. Arrange inspections and ask qualified specialists about issues outside a general inspection.

Restrictions, permits, and utilities

Review recorded restrictions, the survey, easements, HOA documents, and the applicable municipality. Confirm utility service, permits, and any restrictions affecting rentals, additions, or a future build.

Contract dates and financing

Review the written showing or representation agreement before proceeding. A pre-approval letter is not a guaranteed loan. Any option period is negotiated; confirm the fee, payment deadline, and termination-notice deadline in the contract.

Talk it through with CGP

Bring your destinations, timing, shortlist and unanswered questions to a conversation with CGP.

English, Vietnamese, Mandarin, and Cantonese. The same service, responsiveness, and pricing in every language throughout the Houston metro.
