

HOUSTON HOME BUYER GUIDE

Tomball: before you buy

Compare established Tomball homes, newer communities, and larger lots, with questions about utilities, school assignments, and Highway 249 routes.

Compare the properties

Compare homes near Old Town Tomball, newer communities, and larger-lot properties. Check the commute, utilities, and restrictions for each address.

Compare single-family homes in established neighborhoods and newer communities, including larger-lot properties where available.

A few communities to compare

Northpointe, Willowcreek Ranch, Village Creek. Compare the current homes and documents for each address; community names alone do not establish costs, school assignments, or what can be built.

Try the route you will use

Routes to compare include Highway 249 and the Grand Parkway. Test the drive from the specific home to your regular destination, including its entrance or parking garage, at the hours you expect to travel. Traffic and roadwork can change the result.

Bring these local questions

1. What new construction is planned or underway nearby?
2. How is well/septic vs. municipal utility configured for this property?
3. What's the school zoning specifically?
4. What HOA fees and special assessments apply?
5. What's the neighborhood's flood and drainage history?

BEFORE YOU MAKE AN OFFER

Check the exact address

Costs and comparable sales

Review recent sales, the proposed loan terms, current taxes, insurance quotes, HOA dues, and any MUD or other district charges. Keep repairs and cash reserves in the budget.

School assignments

If relevant to your search, confirm the district and assigned campuses directly with the district for the exact address. Use txschools.gov for district and campus information. Ask about boundary changes and enrollment; contact private schools separately.

Flood history and condition

Check current FEMA and local flood maps, available disclosures and claim history, and property-specific insurance quotes. A mapped zone does not rule out flooding. Arrange inspections and ask qualified specialists about issues outside a general inspection.

Restrictions, permits, and utilities

Review recorded restrictions, the survey, easements, HOA documents, and the applicable municipality. Confirm utility service, permits, and any restrictions affecting rentals, additions, or a future build.

Contract dates and financing

Review the written showing or representation agreement before proceeding. A pre-approval letter is not a guaranteed loan. Any option period is negotiated; confirm the fee, payment deadline, and termination-notice deadline in the contract.

Talk it through with CGP

Bring your destinations, timing, shortlist and unanswered questions to a conversation with CGP.

English, Vietnamese, Mandarin, and Cantonese. The same service, responsiveness, and pricing in every language throughout the Houston metro.
